	NECKORANDUM FOR: SPA-DD/S	
	SUBJECT :	25X
	l. Please do not hold open your records for comments from us relative to subject plans or material originating within DDP. is a Senior Staff to DDP, TSS receives this material direct from DEP/PED and replies directly to that office. 2. To illustrate: TSD collaborated in the writing of the Global Plan, concurred in its many changes and in the final approved draft. To ask us now to comment on that plan, is in our opinion mutually unproductive and time consuming. Obviously we are in agreement with the plan or we would not have concurred in DDP recommendation to DCI that the plan be approved. 3. There appears to be some confusion as to the type of material that should be exchanged or coordinated between our respective offices. We'll be glad to discuss the matter informally at your convenience.
